

## A LIST OF HOMOPTERA FROM ONTARIO

BY EVERETT C. LERCH, Staten Island, N. Y.

The following Homoptera collected by Mr. J. F. Brimley of Ontario were turned over to me by Mr. J. R. de la Torre-Bueno for determination. Mr. C. E. Olsen kindly determined the Cicadellidae for me, and Dr. W. D. Funkhouser helped with the Genus *Cyrtolobus*. I thank both these gentlemen and Mr. A. J. Mutchler of the American Museum of Natural History and Mr. Wm. T. Davis of the Staten Island Museum for their kindness in giving me access to the collections for comparison.

## CERCOPIDAE

- 1546 *Aphrophora quadrinotata* Say.  
Rainy River District, Ontario.  
2 specimens, August.

## MEMBRACIDAE

- 1576 *Ceresa taurina* Fitch.  
Rainy River District, Ontario.  
2 specimens, August.
- 1579 *Ceresa borealis* Fairm.  
Rainy River District, Ontario.  
1 specimen, August.
- 1580 *Ceresa basalis* Walker.  
Malorwa, B. C.  
1 specimen, 1923.
- 1621 *Glossonotus crataegi* Fitch.  
2 specimens from Prince Edw. County, Ontario,  
July, and 1 specimen from Rainy River District,  
Ontario, August.
- *Heliria praealta* Fowler var. *rubidella* Ball.  
Rainy River District, Ontario.  
1 specimen, August.
- *Palonica pyramidata* Uhler.  
Rainy River District, Ontario.  
2 specimens, July.
- *Palonica tremulata* Ball.  
Rainy River District, Ontario.  
2 specimens, August.
- *Telamona tristis* Fitch var. *coryli* Fitch.  
1 specimen from Prince Edward County, Ontario,

- July, and 1 specimen from Rainy River District,  
Ontario, September.
- *Telamona unicolor* Fitch.  
Prince Edward County, Ontario.  
2 male specimens, July.
- *Telamona tiliae* Ball.  
Rainy River District, Ontario.  
3 specimens, July.
- *Telamona spreta* Goding.  
Rainy River District, Ontario.  
1 specimen, September.
- 1678 *Cyrtolobus vau* Say.  
Rainy River District, Ontario.  
1 specimen, July.
- 1685 *Cyrtolobus griseus* Van Duzee.  
Rainy River District, Ontario.  
3 specimens, July.
- 1695 *Cyrtolobus (Xantholobus) muticus* Fabr.  
Prince Edward County, Ontario.  
1 specimen, June.
- 1734 *Campylenchia latipes* Say.  
Medicine Hat, Alta.  
1 specimen, July.

CICADELLIDAE

- 1778 *Idiocerus pallidus* Fitch?  
Rainy River District, Ontario.  
1 specimen, October.
- 1779 *Idiocerus suturalis* Fitch.  
Rainy River District, Ontario.  
2 specimens, August and September.
- 1781 *Idiocerus provancheri* Van Duzee.  
Rainy River District, Ontario.  
2 specimens, May.
- 1795 *Idiocerus lachrymalis* Fitch.  
Rainy River District, Ontario.  
1 specimen, September.
- 1817 *Macropsis canadensis* Van Duzee.  
Rainy River District, Ontario.  
2 specimens, August and September.

- 1824 *Oncopsis variabilis* Fitch.  
Rainy River District, Ontario.  
2 specimens, June and July.
- 1837 *Bythoscopus robustus* Uhler?  
Medicine Hat, Alta.  
1 specimen, May.
- 1847 *Oncometopia lateralis* Fabr.  
Medicine Hat, Alta.  
2 specimens, June.
- 1873 *Draeculacephala angulifera* Walker.  
Rainy River District, Ontario.  
1 specimen, October.
- 1923-6 *Gypona scalatina pectoralis* Spangle.  
Rainy River District, Ontario.  
2 specimens, June.
- 1996 *Scaphoideus immistus* Say.  
Rainy River District, Ontario.  
1 specimen, July.
- 2014 *Platymetopius acutus* Say.  
Rainy River District, Ontario.  
2 specimens, August.
- 2051 *Deltocephalus configuratus* Uhler.  
Rainy River District, Ontario.  
1 specimen, October.
- 2126 *Oriotura gammaroides* Van Duzee.  
Rainy River District, Ontario.  
1 specimen, June.
- 2324 *Chlorotettix unicolor* Fitch.  
Rainy River District, Ontario.  
1 specimen, July.

In preparing this list I used Dr. E. D. Ball's recent "Monograph of the Tribe Telamonini" (in *Entomologica Americana*, vol. XII, No. 1) for arranging the group. This paper has been of the greatest assistance to me.
